Provide Advanced Resuscitation– Full Course

Course Description

The aim of this course is to provide participants with the skills, knowledge and application of oxygen, airway management devices, and automated external defibrillators during resuscitation, and to administer oxygen to conscious and unconscious breathing casualties.

Course Content

- Assess the casualty and develop a management plan
- Check resuscitation equipment
- Maintain an airway by: Using suction and oropharyngeal airways (OP airways)
- Resuscitate a casualty using oxygen
- Use oxygen to provide therapy
- Recover and restore oxygen equipment
- Check defibrillation equipment
- Attach and operate a defibrillator
- Recover and restore defibrillation equipment

Entry Requirements

Participants must be a minimum of 15 years of age on the date of final assessment. Participants must hold the following units of competency:

- HLTAID003 - Provide first aid or
- HLTAID001 - Provide cardiopulmonary resuscitation

Assessment

This course is assessed through demonstration, presentation and application of all elements of competency in the workplace. Participants will be required to complete activities that may include role-plays, oral and written questioning, practical demonstrations and performing scenarios.

Accreditation

Upon successful completion of the course, participants will receive the SLSA Advanced Resuscitation Techniques Certificate and a nationally recognised WorkCover approved statement of attainment for the following unit of competence:

- HLTAID007 - Provide Advanced Resuscitation

Validity

To ensure your skills and knowledge remain current re-certification must occur annually from date of course.

Duration

The duration of the course is approximately 6 hours plus a workbook to be completed prior to the training day.

Course Fee

- **Please contact an Academy Business Officer (02) 9471 8000**

*Onsite training is available throughout NSW and the ACT for a minimum of 6 participants. Group discounts may apply.
